### SHORT DESCRIPTION

GDG DevFests are large, community-run events that can offer speaker sessions across multiple product areas, all-day hack-a-thons, code labs, and more. In 2014, the official DevFest Season runs from September 15th through November 30th.

Each GDG DevFest will be inspired by and uniquely tailored to the needs of the developer community that hosts it. While no two events will be exactly alike, each GDG DevFest will, at its core, be powered by a shared belief that when developers come together to exchange ideas, amazing things can happen.

### ABOUT GDGS

#### A GDG is

- Run by passionate individuals in the developer community
- A place to learn about Google Technologies and Tools for developers.
- A place to see what local companies and developers are doing with these technologies
- Focused on developers and educational technical content
- Open to the public with a public membership
- A place to meet cool and smart people in tech

#### A GDG is NOT...

- Run by a corporation
- A place to hear a very salesy pitch at any time
- Focused on end users or consumer content
- A closed group

**More info:** <https://developers.google.com/groups/>

### GDG DevFest Armenia 2013

More than **200 participants** on two days of the event.

**More photos:** <https://plus.google.com/photos/+gdgam/albums/5929749174979538577>

### WHEN

## 22-23 November

Doors Open at 10am

### WHERE

Tumo Center for Creative Technologies  
16 Halabyan Str., Yerevan, Armenia
